

## What happens if I walk-over a student I am concerned about?

Only walk-over a student who has consented to you walking them over to our office. If you feel the student might harm him or herself, or someone else, immediately call 956-326-2911.

If the student is consenting for you to walk them to our office, the student will be greeted by our staff assistant who will then guide the student on the next steps to schedule an appointment. It is recommended you walk the student in and then leave so they can provide the necessary information without feeling pressured.
